

Instantaneous Personal Magnetism

with

John Gamble

Instantaneous Personal Magnetism is an art that is accessible to all who dare claim it. We are all electromagnetic beings. Our bodies are governed by magnetic and electrical impulse. Through our thoughts and actions we charge our bodies with a particular force field that literally attracts towards us a world that we have defined.

There are people in your world who seem to lead lives that are full of miracles. When they enter a room it seems warmer, more full of life and energy. This is not just a metaphorical description, it is literally a fact. The difference with these people is that they have learnt how to harness their natural magnetism. They have turned their magnetic potential into a dynamic force that literally draws their destiny towards them. They have become both an irresistible force and an immovable object.

John invites you on a journey towards unlocking your full magnetic abilities. It has been said that most people are like a normal household light bulb, their energies are diffused and scattered by daily life. But a normal household light bulb can also be focused into a laser-beam that can cut through some of the toughest substances known to man. **Instantaneous Personal Magnetism** is a program that will make it possible for you to transform your energies and your life into a focused journey of excellence and happiness.

Course Out Line:
